DETAILED ACTION

1. In correspondence dated, June 7th, 2006 the Applicant submitted a terminal disclaimer to obviate a provisional double patenting rejection.

Terminal Disclaimer

2. The terminal disclaimer filed on June 7th, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on Application Number 10/242,666 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

3. Claims 1-24 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter:
5. The prior art of record when taken alone or in combination teaches the use of a display panel having front and rear substrates, a plurality of row electrode pairs and column electrodes arranged such that a unit light emission area including a first discharge cell and a gap is formed at each intersection point; and forming a secondary electron emission material layer on or near a rear substrate of the gap. The prior art further discloses means for addressing and sustaining the display panel.

The prior art of record, however, fails to teach alone or in combination a second discharge cell being formed at the intersection of column electrodes and row electrode pairs, and further, reset means applying, prior to address discharge, a positive-polarity reset pulse that induces reset discharge within the second discharge cell.

All of the independent claims 1,10, and 16, contain the above limitations and are considered allowable on the same merits.

Claims 2-9, 11-16, and 17-24 are dependent upon one of the above independent claims and are considered allowable on the same merits shown above.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Will Boddie whose telephone number is (571) 272-0666. The examiner can normally be reached on Monday through Friday, 7:30 - 4:00 EST.
